

2 April 2020

**COVID-19**  
**Donation for the relief of the National Health System**

The spread of Covid-19 these past few weeks is affecting the lives of people worldwide and we are all confronted with great challenges. The pandemic has shown the vulnerability of our society but also its most committed, supportive and responsible side. It's the kindness and support that we give to each other that will help us get through these unprecedented times.

Queensway Navigation Co. Ltd is committed to helping the community and particularly its most vulnerable members. To this end, we have joined the initiative of the Union of Greek Shipowners by pledging to the Greek Shipowners' Social Welfare Company Syn-Enosis the supply of one monitor for Intensive Care Unit to relieve the National Health System.
